BAY to BIRDWOOD

COLLECTABLE PROGRAM

BAY to BIRDWOOD

The Bay to Birdwood starts at West Beach, on the lands of the Kurna people, and concludes in Birdwood, on the lands of the Peramangk people. We pay our respects to Kurna and Peramangk elders past and present, and acknowledge their ongoing custodianship of these lands.

PROGRAM

SUNDAY 20 OCTOBER 2024

THE START - BARRATT RESERVE, WEST BEACH

- 6:15 am Gates open at Barratt Reserve, West Beach Parks
Breakfast and coffee available
- 8:00 am Welcome to Country and Smoking Ceremony
- 8:15 am First vehicles leave

THE ALTERNATIVE START - CIVIC PARK, MODBURY

- 7:00 am Gates open at Civic Park, Modbury
Breakfast and coffee available
- 8:30 am First vehicles leave

THE FINISH - NATIONAL MOTOR MUSEUM, BIRDWOOD

- 9:15 am First vehicles arrive the National Motor Museum
- 10:00 am National Motor Museum gates open
- 11:30 pm Atlantic Street Band performance
- 12:10 pm Welcome to Country and Smoking Ceremony
- 12:30 pm Fashions on the Field competition
- 1:30 pm Announcement of award winners and presentation of trophies
- 5:00 pm National Motor Museum gates and grounds close

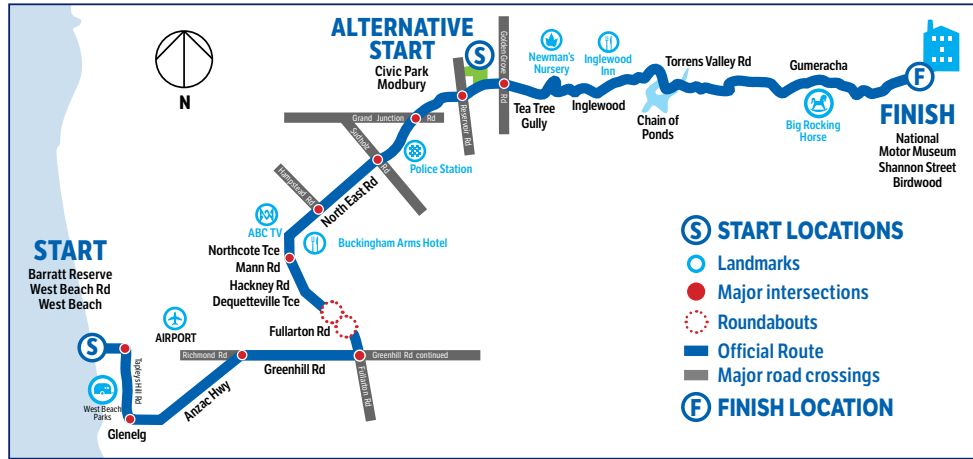

The History Trust of South Australia acknowledges the First Nations Peoples of South Australia, whose living cultures and connection to Country began in time immemorial and continue into the present. We affirm our commitment to the truth telling called for in the Uluru Statement from the Heart as a necessary contribution to reconciliation. Artwork by Elizabeth Close.

THE START - WEST BEACH

THE ALTERNATIVE START - MODBURY

FINISH FESTIVAL

GOVERNOR OF SOUTH AUSTRALIA

Her Excellency
The Honourable Frances Adamson AC

The Bay to Birdwood is a standout event in South Australia's calendar, capturing the hearts of automotive enthusiasts and history lovers alike. Rod and I, as joint Patrons of the Bay to Birdwood, are looking forward to being part of this wonderful day.

With more than 1,500 participating vehicles dating from the early 20th century to 1994, the event sparks curiosity and admiration among people of all ages, bridging generations through a shared appreciation of automotive history.

One of the most remarkable aspects of the Bay to Birdwood is the dedication of the enthusiasts who spend countless hours restoring and preserving their vehicles. From classic cars to vintage motorcycles, every vehicle tells a story, reflecting both its history and the personal commitment of its owner.

For many, the Bay to Birdwood is a chance to share their pride and joy with the spectators who line the route, eager to see these classic and historical vehicles in action.

The National Motor Museum once again plays host to the Bay to Birdwood Finish Festival, where I look forward to presenting the winner of the Bay to Birdwood Concours d'Elegance, Preservation, and the EV Conversion categories. Rod and I congratulate the organisers on their commitment to preserving the past and embracing the future of automotive technology, and the vehicle owners for their dedication and passion.

As you enjoy the day, I encourage everyone to take a moment to reflect up on the significance of the vehicles on display.

We have a rare chance to see history in motion, appreciate the evolution of technology, and celebrate the enduring legacy of these vehicles.

*Her Excellency The Honourable Frances Adamson AC
Governor of South Australia*

PREMIER OF SOUTH AUSTRALIA

The Honourable Peter Malinauskas MP

It's a great pleasure to welcome everyone to 2024's Bay to Birdwood, a truly iconic celebration that draws motoring enthusiasts from all over Australia to our beautiful city and magnificent Adelaide Hills region.

On Sunday 20th October more than 1500 lovingly restored and maintained vehicles will follow a winding 67-kilometre course through the Adelaide Hills, from West Beach to Birdwood, cheered on by over 90,000 spectators.

The History Trust of South Australia's National Motor Museum hosted the first Bay to Birdwood in 1980, growing it into what is now the largest continually held motoring event of its type in the world!

While fondly looking back on automotive history, the Bay to Birdwood also looks to the future through its recognition of EV conversions of historic vehicles: another example of the way our state leads innovation in the clean energy space.

I'm proud to lead a Government that celebrates the boundless enthusiasm driving our state's motoring culture, whether through grants to our local car clubs, including those that preserve these classic and historic vehicles, or through support for the VAILO Adelaide 500, the Shannon's Adelaide Rally, and the Adelaide Motorsport Festival.

So, whether you're behind the wheel of a beloved veteran, vintage or classic vehicle, taking in the showcase of local food, wine, and entertainment at the Finish Festival, or simply sharing in the excitement along the route, know that you're taking part in a celebration of motoring history like no other.

Happy motoring!

*Hon Peter Malinauskas MP
Premier*

MINISTER FOR EDUCATION, TRAINING AND SKILLS

The Honourable Blair Boyer MP

It is a great privilege to celebrate the 2024 Bay to Birdwood as both a participant and as Minister responsible for the History Trust of South Australia.

The Bay to Birdwood is a unique demonstration of our state's proud manufacturing history and shared automotive passion, attracting participants from all parts of Australia.

In 2023, my daughters and I were delighted to exchange waves with the thousands of roadside spectators and participants along the route, experiencing first-hand the joy and community spirit of this amazing event.

Once again, this year I am excited to get behind the wheel of a 1926 Chrysler Model 60, which is part of the State History Collection and proudly displayed at the National Motor Museum.

It is especially exciting for me as a car buff to get to take part in this iconic event. After pulling up a few kms short of the finish line last year, I'm hoping to make it to the end this year!

I'd like to extend my gratitude to all historical vehicle owners and Bay to Birdwood participants for their dedication in maintaining these exceptional examples of our shared cultural and industrial history. I would also like to extend my thanks to the History Trust of South Australia for the custodianship of this distinctively South Australian event.

I'll see you on the route!

*Hon Blair Boyer MP
Minister for Education, Training and Skills*

AWARDS

One of the highlights of the Bay to Birdwood is the judging and presentation of the award categories: Concours d'Elegance, Preservation, and EV Conversion.

The **Concours d'Elegance** is the most prestigious award category at the Bay to Birdwood. Traditionally presented to the vehicle judged best in show, the Bay to Birdwood Concours d'Elegance also assesses the period attire of vehicle passengers. Areas of assessment for vehicles include paint, engine bay, interior, and overall effect. Participant attire is judged according to how authentically it reflects the era of the vehicle.

Introduced in 2016, the **Preservation** category recognises vehicles that present in outstanding original condition without restoration or modification. The appreciation for untouched and largely preserved vehicles has been growing within the historic motor vehicle community for many years.

In a world-first, and in alignment with a shift within historic vehicle circles, the Bay to Birdwood introduced electric converted historic vehicles in 2022 through the **EV Conversion** category. The Bay to Birdwood has always welcomed vehicles modified to run on alternative fuel sources, including liquefied petroleum gases. The EV Conversion category has its own unique and standalone conditions. EV Conversion vehicles must have been converted from an original internal combustion engine (ICE) and drivetrain to an electric drivetrain and power source in the time following initial construction. Modifications directly pertaining to the operation of the vehicle as an EV are permitted in this category. Non-essential modifications are discouraged.

The Bay to Birdwood would like to express the gratitude to our judges who are recognised experts in the field of motoring and generously volunteer their time at the awards.

FASHIONS ON THE FIELD

The Bay to Birdwood is a historical motoring event, but it is fashion that truly steals the show. Participants are encouraged to dress in outfits that represent the style trends of the early 1900's all the way through to 1994. Like machinery, fashion has evolved considerably over the past 100 years and each unique outfit offers an insight as to the broader social and cultural contexts of each period. What we wear tells a story.

The individual stories are unmissable at the start of the event and in particular at the finish where all the participants gather. There are those competing in the Concours d'Elegance, while many others – with vehicles or not - compete for a Fashions on the Field award, and others simply dress up for the fun of it all.

In addition to this larger ethos, there are two distinctive fashion segments at the 2024 Bay to Birdwood.

Concours d'Elegance

The Bay to Birdwood Concours d'Elegance is judged not only on the presentation of each vehicle, but also that of the driver and passengers. Entrants who assemble outfits that most accurately represent the era and style of their vehicle are granted the highest number of points. The entrant with the highest combined score is presented with the prestigious trophy at the end of the day.

Fashions on the Field

The *Fashions on the Field* competition has become a major component of the Bay to Birdwood Finish Festival. The event is a chance for all participants to have their outfits formally recognised and compete for wonderful prizes.

The Bay to Birdwood is pleased to welcome special *Fashions on the Field* judge Annabel Crabb. She is an ABC writer and presenter who has covered Australian politics for 20 years but also is nationally well-known for her insightful and humorous analysis on gender and current affairs. Annabel is one of Australia's most beloved journalists and also hosts ABC's popular history and food series *Back in Time for Dinner*.

This year, we are revelling in fashion and trends from bygone eras, from top hats to acid wash, go-go boots to shoulder pads, and everything between. Entrants from previous years have taken inspiration from wartime uniforms, Mod & Rocker subcultures, the "Roaring Twenties", disco fever, Hollywood glamour and much more.

Fashions on the Field entrants are judged on their accuracy, style and presentation, but above all, entrants are encouraged to have fun and be creative.

Judges

Annabel Crabb
Heather Croall
Nick Phillips
Britt Trueack

THERE ARE THREE AWARD CATEGORIES:

- Best Female Fashion
- Best Male Fashion
- Best Group Fashion

Best Female Fashion and Best Male Fashion categories are open to anyone, irrespective of gender or personal identification. They are intended to frame historical conditions of dress and match the thematic tone of the event. Register for the competition you feel most comfortable in.

Register for the competition before 12 pm at our Fashions on the Field tent, located near the event office.

WHERE FASHION LIVES

The 2024 Fashions on the Field competition is kindly supported by Burnside Village.

WHY I LOVE THE BAY TO BIRDWOOD

Micheal Neale

Chair, Bay to Birdwood
Trustee, History Trust of South Australia

People are always asking me why I love the Bay to Birdwood so much. I think the answer is easy: it's the participants!

The amazing thing about the Bay to Birdwood, truly one of the world's great historical motoring events, is we probably have something like 100,000 to 120,000 participants each year. By participants, I don't mean the entrants. These are the vehicles and there are

1500 of those. That is actually a huge number for a historical motoring event anywhere in the world. When I talk about participants, I mean all the people who dedicate some of their time to come out and experience this world class event that has been part of the cultural calendar now for 44 years.

The Bay to Birdwood involves a multitude of organisers and volunteers working from well before the weekend of the event as well as on the Sunday. Then there are about 3000 to 5000 people in or on the entrant vehicles, a few thousand people who come down to Barratt reserve for the start, around 90,000 Spectators lining the route from West Beach all the

way into the hills, and 5000 to 10,000 people who come to the National Motor Museum to see the vast array of entrant vehicles, the presentation of awards, the fashions and soak up the atmosphere.

Yes, there will certainly be some overlap in those numbers. Some people from the start or lining the route could well end up at the finish event in Birdwood...but the number of participants is huge by any measure.

Being a long-term participant in the Bay to Birdwood, I have a deep respect for the owners, drivers and passengers in the entrant vehicles. The owners make a significant investment of time and resources to keep these wonderful vehicles on the road. The passengers, uncertain of the weather conditions when they agree to join their friends in these beautiful vehicles, often find themselves travelling to Birdwood in less comfort than they would expect in a modern vehicle.

For the drivers, they each deserve a medal! This is a difficult event that involves them driving very old vehicles on public roads with other modern vehicles merging into the parade in places. Braking and power differences, the lack of navigational aids or driver assistance systems, and relatively poor visibility all contribute to a much higher level of awareness and attention being required to drive a historical vehicle in an event like the Bay to Birdwood. On top of all of this, there is no guarantee that they will make it all the way to Birdwood...and if they do get there, there is no guarantee that they will make it home without the aid of a towing service. Kudos to you all.

By far, the group of participants that make me smile the most, the group that makes me happiest, are the 90,000 people lining the route from West Beach to Birdwood. Here I see families sitting together, often three generations, watching the parade go past. Mothers with their sons, daughters with their fathers, friends, lovers, sisters and brothers.

Sometimes I try to imagine what they are saying as they watch us drive past. Grandma perhaps leaning to grandpa and saying, "Do you remember? You picked

me up in a truck like that to take me to the Woodside dance when we were first courting". Or perhaps mum saying to grandma "Didn't Auntie Mavis have one of those?"

One of the things that I really like about the Bay to Birdwood is it's so egalitarian for a world class historical motoring event. The Bay to Birdwood has managed to keep the fees for entrants at a very reasonably low level compared to other tier one events. Then think about the 90,000 people along the side of the road, in their favourite spot, perhaps with their breakfast picnics in the Adelaide Park Lands watching the parade of vehicles stream past. They are enjoying a few hours together as a family, free of charge. In return, they freely and generously give the entrants a smile and a wave and a cheer...and that makes our day and the Bay to Birdwood complete.

PRISCILLA: DESTINATION FABULOUS!

Priscilla is an icon from one of Australia's most celebrated and successful films, *The Adventures of Priscilla, Queen of the Desert*, which went on to become internationally renowned and a symbol of freedom, love and support for the LGBTQIA+ community.

After filming had ended, Priscilla briefly became a tour bus for the Australian band *The Whitlams* before disappearing. In 2019, the National Motor Museum received a phone call from Michael Mahon saying Priscilla was sitting on his property in Ewingar, regional NSW. Already exposed to the elements for nearly 16 years, Michael was adamant - the bus needed to be saved and belonged in a museum where everyone could enjoy it.

Discovered on a property in the New South Wales Northern Rivers region, is a 1974 Hino Freighter, otherwise known as "Priscilla, Queen of the Desert".

She was meant to survive.

After that initial phone call, our curators spent months inspecting the bus, its documentation, its history, and some remnant specks of pink paint to determine if it was actually THE bus. We contacted the film's director Stephan Elliott, who, after seeing two photos, confirmed it was indeed the missing Priscilla bus, with remnants of the carpet and a side rail he had installed himself! In what can only be described as a miracle, after surviving bushfires, floods and covid lockdowns, Priscilla was collected by the History Trust in 2023.

After a perilous journey on the back of a flatbed truck from Ewingar to Brisbane in late 2023, the History Trust undertook scoping works with a specialist coachwork repairer to determine the nature and likely extent of the repair and museum-grade restoration for Priscilla.

Breathing new life.

Not surprisingly, after surviving bushfires, floods and exposure to the elements for 16 years, Priscilla requires an extensive restoration and museum-grade conservation effort. The History Trust wants to return Priscilla to driveable condition and restore the interiors to a scene from the original movie *The Adventures of Priscilla, Queen of the Desert*. The restoration and conservation works alone will take 12-18 months and cost upwards of \$700k. Investing in the National Motor Museum visitor experience and making Priscilla the centrepiece of an immersive and highly interactive exhibition of cinematic proportions will cost even more.

The History Trust is committed to restoring Priscilla and creating a world-class museum experience and tourism drawcard for the National Motor Museum and Adelaide Hills. A fundraising campaign is underway to Save the Queen and raise \$2.2 million, largely via corporate sponsors, philanthropy, and partners. The South Australian Government has pledged \$100,000 to the project. Donations small and large have come from all corners of the globe since April 2024, demonstrating the global impact and continued iconic status and resonance of the film to audiences today.

We hope to see you in Birdwood for the opening of *Priscilla: Destination Fabulous!* in 2027. In the meantime join us on this journey to restore and celebrate an iconic piece of Australian history.

STUCKEY TYRE SERVICE

Russell Stuckey

Founder and Director of Stuckey Tyre Service

Our History

Stuckey Tyre Service was established in 1966 and moved to Brunswick Victoria in 1969 where we operate to this day. Founded by my parents Col and Bet Stuckey, it is still a family business. To this day 20 family members have worked in the business.

In 1972 we were appointed as Dunlop Motorsport Distributor and we are currently the longest serving Dunlop Motorsport Distributor in the world. Our slogan "Racing Since 1972" comes from this significant event. Our Motorsport activities have seen us supporting customers in Malaysia, Japan, UK and Europe as well as most Australian racing circuits. This includes Bathurst, where we supplied most winners until 2000 when control tyres were introduced.

Our Tyres

Whilst Motorsport tyres are still an important sector of our sales, we have broadened our product lineup. Since 2000 we were officially appointed Distributors by Michelin Vintage tyres France. These tyres are incredibly important for the Vintage and classic car fraternity, as Michelin continue to make over 100 unique sizes from 12" to 21" rim diameters including metric sizes. Such iconic patterns as Double Rivet, XAS, XWX and TRX are still in production.

More recently Pirelli have appointed us as Distributor for their range of classic tyres. This is exciting news for Classic car owners as Pirelli have developed a range of approximately 50 sizes from 12" to 18", also including some metric sizes as well. Famous Pirelli patterns include CA67, CN36 and P7 Cinturato. So now our product range of tyres for Classic cars includes other famous brands such as Avon, Dunlop, Goodyear Firestone, Excelsior, Vredestein, Goodrich, Ensign, Lucas, Roadmaster and Blockley.

Following the success of our famous Classic range of tyres, we now add Antique and Vintage tyres. The biggest name in Vintage car tyres is the Blockley brand, based in England. We are honoured to have been appointed sole Australian Agent for Blockley Tyres and stock the full range. These include vintage tyres in sizes from 15" to 21" and also Beaded edge tyres.

Following our appointment as Blockley Agent, we took over the business of Old World Tyres based in Mudgee, NSW. This business specialised in importing tyres for Vintage and Veteran cars. So now we can service the Vintage tyre market with a full range of tyres, tubes and rust bands.

Our Services

Our workshop is equipped with the latest equipment for servicing Vintage and Classic tyres and wheels. In particular we are able to balance classic wire wheels without any ugly weights showing.

Our Mission

Our mission is to expertly supply and service a wide range of quality tyres and tubes for collectible cars. Feel free to contact us to discuss your requirements. Many tyres available from stock, and many more through our worldwide contacts.

CLASSIC, VINTAGE & VETERAN NOW AVAILABLE

For over 50 years Stuckey Tyre Service has provided quality tyres and service for classic and collectible cars. In addition to carrying fresh stock from these major manufacturers, our worldwide sources can deliver hard to find tyres for correct and concours applications.

CLASSIC, VINTAGE & VETERAN NOW AVAILABLE

CIRCLES OF PROGRESS

Nick Palousis *Managing Director, 2XE*

Perhaps it will be circles that shape a sustainable future for everywhere I look today, I see the road to a sustainable, circular economy.

I guess it is not what the average person would expect; an iconic historical motoring event being associated with sustainability and the circular economy. But the average age of motor vehicles in Australia, including motorcycles and commercial non-passenger vehicles, is about 10.6 years¹ and yet the entry qualification for the Bay to Birdwood is at least 30 years. That means that entrant vehicles here are generally more than three times the life of an average vehicle in Australia. These vehicles have not been replaced every ten years and that is important when we think about the circular economy for three reasons.

The first reason is that to repair, restore or renovate a vehicle generally uses less materials and less energy than replacing that vehicle. This was a concept promoted in architecture by Carl Elefante in his paper "The greenest building is... one that is already built" that has become the catch-cri of sustainability through conservation.

*"We cannot build our way to sustainability; we must conserve our way to it."*²

Secondly, the fact that we have vehicles here today from every decade of the 20th century is testament to the fact that these vehicles were built to last. Certainly, they were built to be repairable. When consumer industrialisation pushed for planned obsolescence, some consumer products were built for a determined lifespan and then replaced rather than repaired.

Perhaps the lucrative spare parts business kept vehicle designs repairable for longer? Today, we see EU legislation adopted that will help to eliminate planned obsolescence from other sectors of the economy through the so called "Right to Repair" directive.³

Finally, the centralisation of manufacturing, automation, increasing professional and service sector employment have all resulted in a loss of craft skill in our society. Our ability to move from a linear economy, based on mine-make-consume-dispose, to a circular economy model, based on use-repair-refurbish-reuse, is dependent upon us having a skill-base of people who know how to fix, repair, restore, regenerate, repurpose and make things work. Where will we find these key people to drive the transformation of our economy? They are here today, sitting by their vehicles, on a picnic rug with their apprentices (their daughters and sons).

Nick Palousis

Nick Palousis is Managing Director of sustainability consulting firm 2XE. He is a climatech entrepreneur and respected speaker on decarbonisation, circular economy and regenerative business practices. He is a Telstra Business Award winner and proud South Australian.

ALL BRITISH DAY 2025 ECHUNGA RECREATION GROUNDS Sunday 2nd March 2025

South Australia's biggest annual all British Vehicle show features hundreds of historic and classic cars, trucks, commercials, motorcycles and much more displayed on two ovals.

All British Day is traditionally a family picnic day centred around a static British vehicle display and for 2025 our theme and special display is - 1950.

This was a significant year in British vehicle history when old designs and engineering gave way to the new. In 1950, not only vehicles changed, but fashions did too. In something new for 2025 we will be recognising the relationship between fashion and motoring with Dressed to Drive.

Adults \$12 Children 6-18 years \$5 Family \$25 (2 adults + 2 or more children)

Child admission includes access to free onsite entertainment
Tickets can be purchased on the day

Open from 10.30 am to 3.00 pm for visitors. Free parking. Food & drinks available.

Sorry no dogs allowed except for Guide Assistance Dogs

FURTHER DETAILS: www.allbritishday.com

FLORENCE THOMSON

Daryl Meek and Fiona Lane **Pioneer Motorist**

Florence Alice Vardon was born in India in 1864 where her father was serving in the British Army. As a young woman she attended the Training College for Teachers of the Deaf in London, where she learnt to teach lip-reading. After graduating in 1888, Florence travelled to Australia where she began employment in Melbourne with the organisation then known as The Asylum for the Deaf and Dumb in St Kilda Road.

In 1892, Florence resigned her position and moved to Adelaide where, on 10 September 1892, she married dentist, Benjamin Thomson. Thomson provided dentistry free of charge to the deaf community in rural South Australia as well as running his business on North Terrace in Adelaide.

Both Florence and Ben both took an early interest in motor cars, Florence teaching herself to drive. In 1903, Ben drove his 6hp 1903 De Dion Bouton from Adelaide to Melbourne via the Coorong, becoming the first person to do so. Not to be outdone, in 1904 Florence, accompanied by a chauffeur-mechanic, repeated her husband's achievement by driving her own 5hp Beeston Humberette over the same route, becoming the second person and the first woman to do so.

In 1905, Florence travelled to Sydney to compete in the first Dunlop Reliability Trial held between Sydney and Melbourne. Driving her new 6hp Wolseley, Florence, again accompanied by a chauffeur-mechanic, was the event's only female entrant and completed the challenging 572 mile course, whilst many of her male counterparts did not. She drew much attention enroute and became a favourite of the press.

Florence was also an early member of the Automobile and Motor Cycling Club of South Australia, participating in runs and competitions from its inception in 1903. She was both friend and supporter of overland adventurer and pioneer motorist Francis

Birtles, often corresponding with him and accommodating him at her North Terrace home during some of his journeys.

While assisting her husband in his practice, Florence also held the position of Secretary of the Ladies Committee for the Deaf and Dumb Mission in Adelaide for over forty years. She continued to teach lip-reading throughout her life to those who could not hear and was an active member of the Australian Ladies Kennel Club, breeding and showing prize-winning Pug dogs.

In 1933, Florence supported the move, along with other pioneering South Australian motorists, including Murray Auger, to implement driving tests for motorists. Often sought out for her opinion on current day motoring issues, Florence was always happy to give her point of view.

Florence died in her home on North Terrace on 28 January 1938. She left a large share portfolio benefitting organisations including the Deaf and Dumb Society, the Children's Hospital, and the RSPCA. In 1939, she was honoured with the naming of the "Florence Thomson Memorial Wing" at the Angas Home for the Deaf in Parafield.

Florence Thomson was a fiercely independent South Australian whose community work and motoring achievements are deserving of greater recognition.

In recent times an event known as the "Florence Thomson Tour" has been established in Victoria. Held annually, the event is restricted to women drivers of historical vehicles.

FASHIONS ON THE FIELD PARTNER for the **BAY to BIRDWOOD**

burnsidevillage.com.au f @ in d

FINAL WORDS THANK YOU

The History Trust of South Australia would like to thank all sponsors, partners, suppliers, and organisations for making this event one of the world's great historic motoring events. A special thanks is extended to the Bay to Birdwood Advisory Committee, which provides strategic advice on the future directions of the Bay to Birdwood, and to all volunteers who kindly donate their time, enthusiasm, and energy.
